

Dear West Roane County Neighbor,
It is nice to know that as you sleep each night, you can rest assured knowing that our local Volunteer Fire Department is standing guard over our community. We are here around the clock, always ready to spring into action to help you and your neighbors, should disaster strike.

We are First Responders, not just for fire. Most calls are for medical emergencies.

Now we need to ask for your continuing financial support. There is \$35k left to pay on our newest fire truck and our community needs more stations and hydrants. Calls for help are up; grants are down. We receive little federal or state funding; support must come from good folks like you, those whom we protect.

First Responders are always there for America, no matter how tough the job. Now we are asking you to join with us as a strong continuing supporter, to help us help you. We at West Roane VFD need you to be our active, ongoing partner, and we thank you for the chance to keep serving our community.

--Chief Charlie Redwine, WRCVFD
